are all advertised Medicines Fakos?

As well ask "Are all doctors quacks?" or "Are;all law-yers shysters?" We all know there are ignorant quacks; does that prevent anyone calling in his good, old family physician in case of need and trusting him? There are shysters, but there are also honorable lawyers to whom we confidently trust our lives and fortunes.

There are fake medicines advertised; but they are not fakes because they are advertised. A good thing is worth advertising; we all want to know about it. The more a bad thing is advertised, the worse for it in the end.

Lydia E. Pinkham's Vegetable Compound is no fake; yet it is advertised; it advertises itself; and those who have used it are its best advertisers, and that, free of cost.

Lydia E. Pinkham's Vegetable Compound has proved its merit by more than thirty years general use. This simple, old-fashioned remedy, made from roots and herbs, has become the standard medicine for ailments peculiar to women, - its fame is world-wide.

Read this plain, honest statement of what the medicine did for one woman; her own words; if you doubt, write

Chester, Ark. - "I used to think I had no use for patent medicines and would not read the advertisements. I think now if I had I would have taken Lydin E. Pinkham's Vegetable Compound and saved myself years of suffering. I had suffered from female troubles for twenty years, and when Change of Life came I grew worse. I got so nervous I could not sleep nights and could hardly get around — I suffered agonies.

"Lydia E. Pinkham's Vegetable Compound was recommended and it helped me so much that I continued its use, and I am so well that I feel like a different person. My advice to all suffering women is to try Lydia E. Pinkham's Vegetable Compound."—Mrs. Ella Wood.

... The makers of Lydia E. Pinkham's Vegetable Compound have thousands of such letters - they tell the truth, else they could not have been obtained for love or money. This medicine is no plausible stranger - it has stood the test of years.

For 30 years Lydia E. Pinkham's Vegelable Compound has been the standard remedy for female ills. No sick woman does justice to herself who will not try this famous medicine. Made exclusively from roots and herbs, and has thousands of cures to its credit.

Imitations.

Cheap Substitutes and "Just As Good As."

Unscrupulous dealers, mindful only of profit and caring nothing for the health of their patrons, are offering for tale low-grade, impure whiskey, which they tell you is as "good as Duffy's."

It is a cheap concoction and fraud, intended to deceive the people. Of course, when a remedy has been before the public so long, has been prescribed and used by the best doctors and in all the prominent hospitals, and has carried the blessing of health into so many thousands of homes as Duffy'a Pure Malt Whiskey has, imitations are bound to arise. But they can imitate the bottle, and label only—no one can imitate the contents.

But they can imitate the bottle and label only—no one can imitate the contents.

Duffy's Pure Malt Whiskey is an absolutely pure distillation of malted grain; great care being used to have every kernel thoroughly malted, thus destroying the germ and producing a predigested liquid food in the form of a malt essence, which is the most effective tonic stimulant and invigorator known to science; soltened by warmth and moisture, its palatability and freedom from injurious substances render it so that it can be retained by the most sensitive stomach.

Any firm that will sell imitation or substitution. Any firm that will sell imitation or substitution goods will sell impure goods. The firm that is dishonest in one thing would not hesitate to be dishonest in another. Whenever you see initation and substitution goods offered for sale by a firm, beware of snything and everything put up by that firm. You endanger your own life and the lives of your family and frieads by dealing with them.

BEWARE OF FRAUDS! Duffy's Pure Mait Whiskey

Is sold in sealed bottles only—never in bulk.

A factomile of the genuine bottle is printed here so that you may easily recognize it. A REWARD OFFERED.

Every electric rallway in the United States knows the menance of "fake" accident claims and fraudulent suits. And no honest citizen exists who would not give assistance to prevent any such corrupt cause coming before our courts in the disguise of woe.

Sometimes the sad-faced rascal who is bringing suit was near an accident but did not receive a scratch; sometimes it is an innocent looking criminal who was not even near an accident; sometimes it is a person who was actually hurt but who was to blame himself or herseif - and knows it.

Most of these suits arise when some penny-catching lawyer gets hold of a so-called "victim" as dishonest as himself and wants to "share the profits" of suing the Company.

How are such suits maintained? By perjury. By witnesses who do not tell the truth.

For evidence upon which a conviction, for perjury, of any witness against this Company in an accident damage suit is obtained, this Company will pay \$500.00 at any time during twelve months from date of this offer!

Do You Get Up With a Lame Back?

Kidney Trouble Makes You Miserable. Almost everyone knows of Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder remedy, be-

able health restoring properties. Swamp-Root fulfills almost every wish in overneys, liver, bladder and every part of the

urinary passage. It corrects inability to hold water and scalding pain in passing it, or beer, and overcomes that unpleasant necessity of being compelled to go often through the day, and to get up many times during the night.

Swamp-Root is not recommended for

Swamp-Root is not recommended for everything but if you have kidney, liver or bladder trouble, it will be found just the remedy you need. It has been thoroughly tested in private practice, and has proved so successful that a special arrangement has been made by which all readers of this paper, who have not already tried it, may have a sample bottle sent free by mail, also a book telling more about Swamp-Root, and how to findoutif youhave kidney or bladder trouble.

Cleveland, O., Jan. 20.-President Harry Pulliam, of the National Haseball league, and President Ben Johnson of the American league, and other members of the schedule committee for the two major leagues met here and compared tentative schedules for the 1909 season. The conflicting dates were reduced to some extent, but the task could not be com pleted. This will be done at a meeting to be held with the clah representatives, to be held in Chicago in a few weeks. The committee went as

far as possible and adjourned. The only announcement made was that the American league will open in the east on April 12, and the National in the west on April 14. While changes were made in some of the holiday dates, nothing would be given out. While here President Johnson, of the American league, closed the season contract with Umpire William Evans. > Empty hogaheads furnished free to parties wishing to ahip their tobacco by rail or river

Tobacco is unloaded in large, flat baskets, each grade to itself, weighed and receipt given owner, showing number of draft and pounds thereof. A corresponding ticket is placed on each pile. The highest bid is written on ticket and, should owner accept same, by presenting at office receipt previously given, the cash is handed over.

Should the bid offered not be satisfactory, the tobaces can be offered the next day or at any other time thereafter.

It costs absolutely nothing to offer your tobacco unless bid is accepted, in which case we charge 15 cents per hundred pounds and 2 cents on the dollar.

The greatest demand among manufacturers and dealers is for loose tobacco and, since it will bring more money offered loose, why go to the expense of having prized; stored, insured, inspected and looked after?

You will get more money for your tobacco when offered to the highest bidder in open competition with twenty-five buyers trying to buy than when you expect or require one buyer to bny millions of pounds without competition at a round price.

Light May Illind Fish,

The possibility that all fish of the ep water classes in the battery murium may lose their sight if the olicy of keeping that institution open natil 10 o'clock at night on certain days of the week is continued has roused much discussion among studnts of ichthology in the last few days. The chief question discussed is whether the fishes can endure on their unlidden eyes for more than six hours of the twenty-four strong rays of artificial unshaded light. It is asserted by experts that even though the brilliancy may have no immediate effect it will eventually cause blindness in such fish as the sturgeon, which in its natural haunts remains nany feet below the surface.-New

A Very Wrong Idea

A Young Man Had It.

A well known young man said the other day: "I would like to start a bank account if I could ever save up enough money to do so." That is the idea a great many people have, that they must have \$40 to \$80 to start. That is wrong, very wrong. The way to start a bank account is to bring a few dollars to us each salary day and place it in our Savings Department, where it draws 4 per cent interest and you will be surprised how fast it will grow.

MRS. BDDY WARNS WOULD-BE RIVAL

Leader Advises Mrs. Stetson to Cease From Display.

Many Members of Organization Think First Congregation of Gotham Will Be Cut Off.

OHUROH WAR IS "IMPENDING

Mrs. Mary Baker G. Eddy, the aged leader and founder of the Christian Science church, yesierday broke the silence of a year to fling out the aignal of danger over Mrs. Augusta Stetson, leader of the First Church of Christ Scientist in New

in a signed editorial Mrs. Eddy givea warning that Mrs. Stetson's efforts to hulld a magnificent branch edifice of the New York church and continue the spiendor of her present regime meant only failure in the real purpose of the cult.

This marks the first definite sign of a split in the Christian Science movement. That Mrs. Eddy should take personal coguizance of it demonstrates that the danger is fully realized by her and her satellites.

Mrs. Stetson, it is said, is ambitions to succeed to Mrs. Eddy's place upon the death of the founder of the movement. The New York woman is now the power behind the thronc in the richest Scientist church in the United States. Her picture adorns the church wails.

Recently she has been working on pians for huilding a new \$250,000 church, to be aubsidiary to her and to the New York church, instead of giving direct allegiance to the mother

With Mrs. Eddy's warning in view It is now expected by many Christian Scientists that Mrs. Stetson and her church will be cut adrift speedly unless this plan is forsaken.

Mrs. Eddy's Veiled Threat,

Mrs. Eddy, in the weekly edition of the Scientist, the official organ of the church, says:

"The infinite is one, and this one is spirit; spirit is God, and this God is infinite good.

'This simple statement of oneness is the only possible correct version of Christian Science, God being infinite, he is the only hasis of science; hence, materially is wholly apart from Christian Science, and is only a 'auffer it to be so now' until we arrive at the spiritual fullness of God, spirit, even the divine IJea of Christian Science, Christ, born of God, the offspring of spirit, wherein maiter has neither part nor portion, because matter is the absolute opposite of spiritnat means, manifestation and demonstration. The only incentive of a mistaken sense is mailcious animal magnetlsm-the name of all evil-and this must be understood.

"I have crowned the mother church of Christian Science, which is its jewel. When my dear brethren in New York desire to build higher, to enlarge their phylacteries and demon strate Christian Science to a higher extent, they must begin on a whol'y spiritual foundation, than which there is no other, and proportionately estimate their success and glory of achievement only as they build upon the rock of Christ, the spiritual foundation. This will open the way, widely and impartially, to their never ending success, to salvation and eternal Christian Science.

"Spirit is infinite; therefore, spirit is all. 'There is no matter' is not ouly the axiom of true Christian Science but it is the only basis upon which this science can be demonstrated."

New York Splendor.

in opposition to this slmpie view of life and duty and the material world it is said that Mrs. Stetson has surrounded herself with magnificently gowned women, that the First church is a palace of material splendor, and that the poor are not made welcome. George Shaw Cook, bead of the publicity department of the church for the state of Hilnols, said last

night: "I do not interpret this editorial to mean that Mrs. Eddy is threatening Mrs. Stetson in any way. I look upon it simply as a warning to the New York church not to drift too far into

the love of the material." Notwithstanding this statement it is the belief of many Christian Scientista that the First church of New York will be cut off from fellowship with the mother church in Boaton within a short time and that Mrs. Stetson will endeavor to start a cult of her own.

Presents Scholarship to Honor Pupil of the Graduating Class of

Dr. Crossfield, the president of Transylvania university, Lexington, spoke at the High school this morning and presented a four-year scholarship to Miss Marion Williamson, who is the first-honr pupil of the class that will he graduated the last of the month from the Paducah High achool, Dr. Crossfield stated that Transylvania university has only a few High schools represented in it and this tribute to Miss Williamson's high record is a fine recognition that is greatly appreciated by the High school faculty and Superintendent Carnagey.

Transylvania university is the oldest school west of the Allegheny mountains and is identified with many who have made the history of this country. George Washington helped to establish it. Henry Clay, Chief Justice Harian and other notable men are among its graduates. Paducah has aiready had one co-ed Pittsburgh 3.9 at Transylvania, Miss Mabel Weaks being a graduate of it.
